WATERROWER ORIGINAL SERIES

An evolution of the original WaterRower design, handcrafted in New England using manufacturing techniques refined over four decades. As with all WaterRowers, Original Series rowing machines feature the unique WaterFlywheel, peerless in its simulation of on-water rowing. Available with an optional mobile device arm for utilizing the *WATERROWER Connect* app or *CityRow* app as you row.

WATERROWER PERFORMANCE SERIES PERFORMANCE ERGOMETER

Created for competitive rowers and fitness enthusiasts, the WaterRower Performance Ergometer is fitted with industry-leading force pulley technology; ergometer-precise training data is transmitted wirelessly via Bluetooth with every stroke. The Performance Ergometer features extra-long rails suitable for users of any size, a robust heavy-duty footboard, and a commercial handle for enhanced comfort.

In lieu of our standard S4 Performance Monitor, the Performance Ergometer utilizes the subscription-free *WATERROWER Connect* app on your smartphone or tablet to display force pulley data while rowing. A mobile device arm matching your rower's finish is included.

WATERROWER METALLIC SERIES

M1 LORISE

Constructed from industrial-grade powder-coated aluminum, the WaterRower M1 is our most sought-after model for the boutique and commercial gym market. Designed to maximize user engagement, the M1 is fitted with the Bluetooth-enabled S4 BLE Performance Monitor to track key indoor rowing training data, enabling individual gym members to have a personalized experience by using the subscription-free *WATERROWER Connect* app to track workout progress over time — even in group settings.

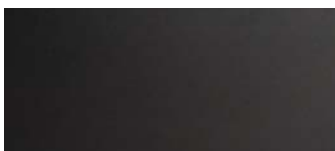

The M1 LoRise features a standard entry height, extra-long rails suitable for users of all sizes, a commercial handle for enhanced comfort, and robust construction throughout. Styled to complement commercial strength and cardio equipment, the M1 may be ordered in custom colors and finishes to suit any venue. Available with an optional mobile device arm in a matching finish.

WATERROWER PURE SERIES

VR3

With its clean and elevated design, the WaterRower VR3 is a budget-friendly alternative to the WaterRower Original Series. Featuring a solid Northern Red Oak frame using slightly narrower timber than the Original Series, the VR3 is lightweight and portable. The VR3 utilizes the same patented WaterFlywheel technology and dual-rail seat action as other models in the WaterRower range. Fitted with the S4 Performance Monitor as standard. As with all WaterRower models, the VR3 stands on end for space-saving storage.
